In today's global society countries compete with each other for the world's attention, for people, for foreign investment and capital. Where people spend their holidays, where companies invest, which university scientists select for their research activities, or where major conferences are held – all these decisions affect the importance and the prosperity of a country. The way a country is perceived abroad is central for such decisions. Therefore a country cannot allow itself to be indifferent to its image abroad.

Focused, consistent and strategic communication is needed to grant a country a sustainable, distinguishable and advantageous image in the world, in other terms a "nation-brand". Successful nation branding, i.e. communicating a unique, unmistakable profile, makes a country stand out above others. In this respect, nation branding is a vital investment into the future of a country.

It is Presence Switzerland's goal to establish the nation Switzerland as a strong brand. Creating a consistent content and a visual basis – a corporate identity – for Switzerland's presentations all over the world is the key to the success of the Brand Switzerland.

This manual contains the visual guidelines for Switzerland's worldwide presentation initiated and sponsored by Presence Switzerland. A consistent application of these guidelines is needed to the strengthening of the brand. The uniform appearance is the base to increase the impact of our activities by a higher degree of recognition.

We thank everybody who helps us creating a uniform appearance of Switzerland worldwide by applying the following guidelines.

Your Presence Switzerland Team

This manual is addressed to the staff of the Federal Department of Foreign Affairs, partner organisations and sponsors who implement activities of Switzerland abroad in cooperation with Presence Switzerland as well as to specialists who are carrying out design work on a commission basis.

The purpose of the guidelines in this manual is to ensure a uniform appearance for the presentation of Switzerland abroad. The guidelines apply to all activities of Switzerland that Presence Switzerland implements abroad, including those for which it provides financial or logistical support.

It should be noted that Presence Switzerland not only carries out activities abroad under its own aegis but also supports activities of third parties.

■ **Presence Switzerland Activities**

In the case of activities being completely initiated, managed and implemented by Presence Switzerland, the application of the entire CI is mandatory.

■ **Subsidised activities by Presence Switzerland**

Activities which are financially supported in the framework of the Presence Switzerland strategy are not subject to the full CI requirement. In the case of such activities, the Logo Switzerland should be used as an over-arching symbol for the activities concerned.

The Corporate Identity Manual Switzerland can be obtained at Presence Switzerland (prs@eda.admin.ch). Presence Switzerland also provides the Logo Switzerland in various languages as well as templates for the most common means of communication (brochures, flyers, advertisements etc.).

All applications of the CI Switzerland must be presented to Presence Switzerland for approval prior to any kind of reproduction or output.

Interrelation between CI Switzerland and CD Confederation**CD Confederation:**

The corporate design of the Swiss Confederation is the visual identity of the federal administration. The corporate design of the federal administration represents the administration and its departments. It applies to the Federal Chancellery, the departments, the offices and all organisational units of the first and second circle. See www.bk.admin.ch

CI Switzerland:

The Corporate Identity Switzerland is an instrument of Nation Branding. It is used for the Swiss presence abroad and defines its content and visual basis. As Presence Switzerland is a federal office, the CI Switzerland is subject to the guidelines of the CD Confederation. The CI Switzerland has been approved by the Conference of General Secretaries on 25 January 2008. The way in which the guidelines of CD Confederation are implemented in the framework of CI Switzerland will be explained in detail in chapter 3.

This chapter illustrates the identity of Switzerland as a brand.

The Identity Switzerland determines the values and messages of Switzerland to be communicated and aims to position Switzerland uniquely in the international competition.

The Identity Switzerland is the basis for the core messages, the tonality and the visual elements of Switzerland's communication abroad.

1.3.1

All communication for Switzerland takes place in the brand context of Switzerland's self image, its image abroad and the reality.

Self image:

The perception of Switzerland within Switzerland.

Image abroad:

The perception of Switzerland abroad.

Reality:

The actual strengths and weaknesses of Switzerland.

The goal of the communication abroad is to make all actual strengths of Switzerland part of the image abroad, i.e. create a realistic, positive image of the country as seen outside of Switzerland.

In order to reach this goal, the exact content of the above-mentioned contextual parameters has to be defined.

Identity Brand Context

1.3.2

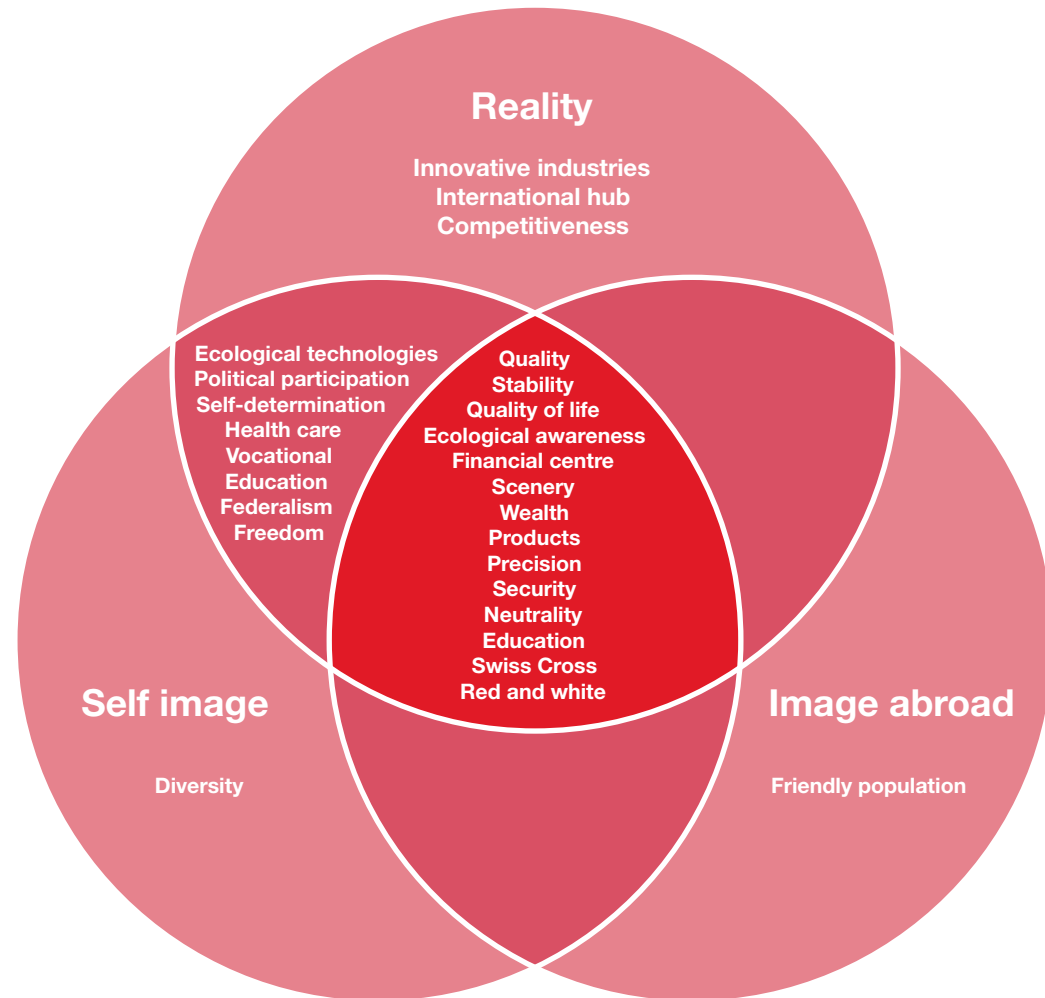

The definition of the contextual parameters is based on various external studies, international comparisons and analyses by third parties.

As the goal of the communication is to create a positive, realistic image of the brand abroad, the brand analysis concentrates on Switzerland's strengths only – being fully aware of the weaknesses, too, of course.

The analysis shows a very high congruency in many aspects (the middle intersection), yet at the same time highlights obvious differences in the perception inside and outside of Switzerland as well as between reality and image.

The middle intersection defines the brand image of today, the differences in perception influence the definition of the aspired, future brand image.

Identity Brand Analysis

1.3.2.1

The brand image can be divided into three sections: accomplishments, values & character and appearance.

The accomplishments define what the brand contributes to its environment. The values & character describe the manner in which the brand acts and behaves. The appearance defines the typical elements by which the image of the brand is manifested.

The present brand image draws a rather traditional picture of Switzerland. A picture that corresponds only inadequately with the actual reality and the innovative aspect of the country.

The goal is to complete and refresh the present image with those elements that are **attractive** and **relevant** for the audience abroad, **distinguish** Switzerland from other countries and leave room for **creative brand development**.

Identity Brand Analysis Present Brand Image

1.3.2.2

Based on the above-mentioned criteria, the brand image of the future has been defined after extensive screening and evaluation of the present brand image.

The aspired future brand image condenses the brand elements to a more **compact, active brand** with more communicative impact. It focuses on two core messages that contain the relevant accomplishments described above, yet with an innovative, active aspect added to them.

The accomplishments **self-determination** and **secure future** position the brand very uniquely and favourably in a highly individualised and highly insecure world. The messages define the relevant content of the communication abroad.

The focus on these two accomplishments draws the picture of a **confident brand** with a strong position in the international context. This attitude is also reflected in the sections values & character and appearance. It determines the tonality and the visual style of the country communication abroad.

Identity Brand Analysis Future Brand Image

1.3.3

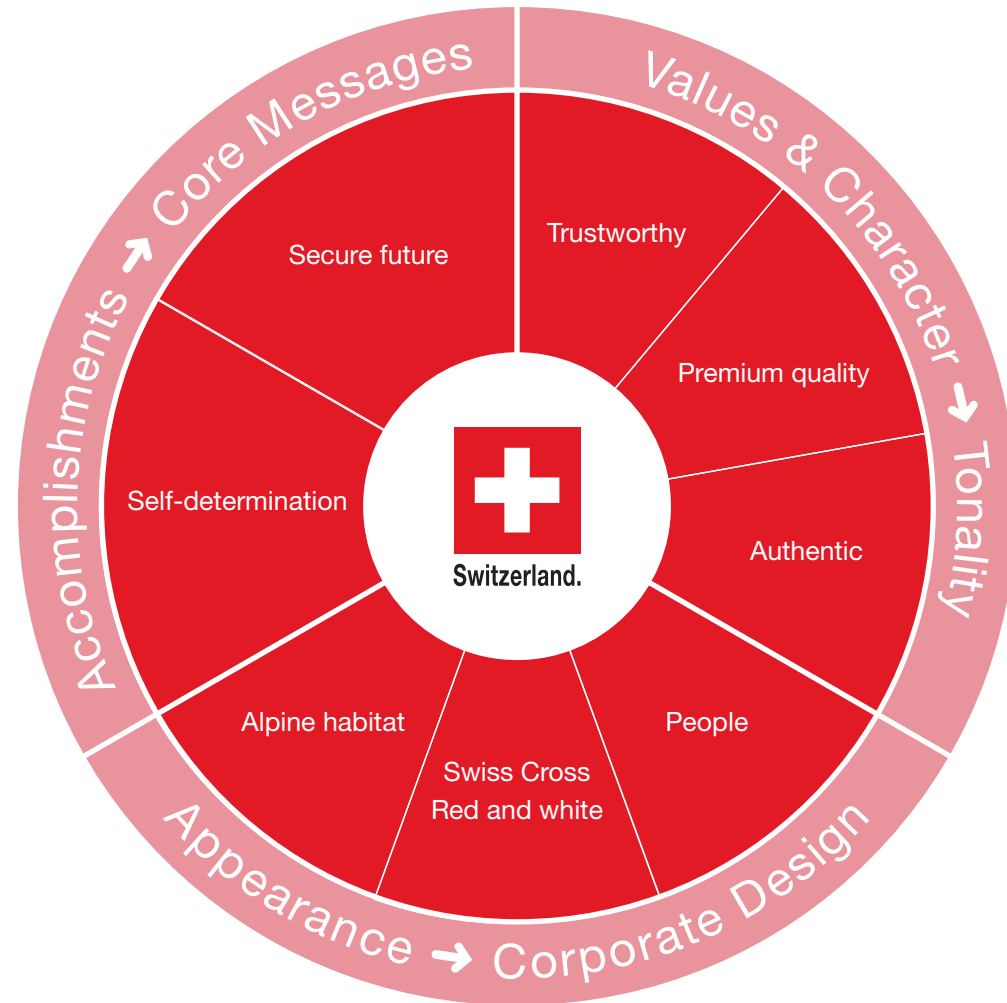

The elements of the future brand image define the guidelines for the country communication abroad. These guidelines concern three aspects, all of them described in this manual:

- Core messages
- Tonality
- Corporate design

All three aspects are of the same importance in the implementation of communicative measures abroad. They must be followed strictly by all parties involved.

Identity

Future Brand Communication

1.3.3.1

The two core messages are self-determination and security for the future

Self-determination stands for Switzerland's pursuit of independence, the political system with the direct democracy, the federalism, the tax system, the protection of intellectual property, the banking secrecy and much more.

Secure future contains the high quality of life, the high life expectancy, the security, the political stability, the attractive location for international companies, the financial centre, the innovative environment protection, the life science, the excellent health care system etc.

The two core messages must be conveyed in all projects, study trips or information material sponsored by Presence Switzerland. They are not slogans, though, and should never be used as abstract terms, but only in combination with concrete case stories from Switzerland. Corresponding success stories can be found at www.image-schweiz.ch

Identity Future Brand Communication Core Messages

1.3.3.2

Communication gives the brand Switzerland a voice, in countries all over the world, in any given activity sponsored by Presence Switzerland. The tonality for the communication must therefore always express the values and the character of the brand.

This means the communication must be trustworthy, reliable and credible. It must be of premium quality, in text, art work and execution. It must always be authentic, communicating the actual, existing strengths of Switzerland. All examples and pictures must tell stories about real people.

Identity Future Brand Communication Tonality

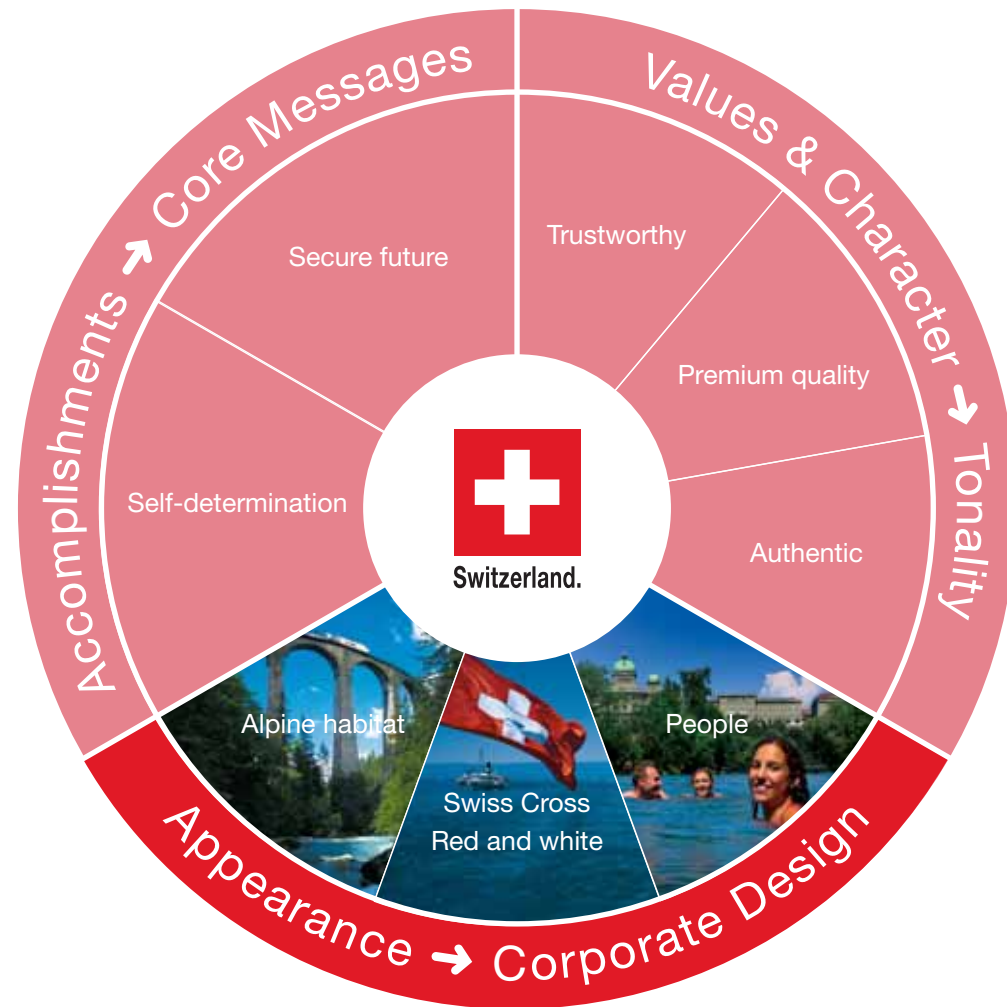

1.3.3.3

The elements of the appearance, i.e. the Alpine habitat, the Swiss Cross, the country colours red and white and the people, are integral part of the Corporate Design.

They are implemented in the Logo Switzerland, in the layout guidelines of all communication material and in the visual world defined in chapter 2 and 3.

In order to convey a more active, confident and self-determined image of Switzerland, the Swiss population and the Swiss Alps should be more dominantly present in all communication measures.

Identity Future Brand Communication Corporate Design

Corporate Identity

The Corporate Identity (CI) is the identity and personality of a company or organisation. It defines the overall behaviour, communication and visual appearance of a corporation.

Corporate Design

The Corporate Design (CD) is a part of the Corporate Identity (CI). It contains the entire visual appearance of a company or organisation. The design of various means of communication, e.g. logo, stationery, advertising material, packaging etc. is part of the CD.

CD Manual

The Corporate Design manual brings together all distinctive characteristics of the Corporate Designs plus its definitions and measurements. It contains mandatory as well as optional guidelines.

Appearance

The visible, visual appearance of a company or organisation, also called Corporate Design.

Logo

Logo is a synonym for signet, company sign, company logo.

Pagina

Technical term for the number of a page.

Point

Unit of measure in the typographic measuring system. 1 point = 0.376 mm

Threshold Value

The threshold value defines the borderline for tonal values (grey tones) to be counted to either white or black.

Exclusion Zone

Defines the free space around the logo. The exclusion zone makes sure that no other graphic elements are positioned too close to the logo and thus compromise its impact.

Scaling

Up and down sizing of signs and pictures.

URL

Uniform Resource Locator. The URL specifies the exact address (domain name, directory) for internet data used mainly within the World Wide Web.

2 Corporate Design Elements Brand Switzerland

2.1	Logo Switzerland	19	2.4	Corporate Colours	37
2.1.1	Logo Size	27	2.5	Visual World / Photography	39
2.1.2	Logo Font	28	2.6	Logo Confederation	42
2.1.3	Logo Colours	29	2.7	Logos Partners/Sponsors	44
2.2	Logo Usage	30	2.8	URL	46
2.2.1	Logo Placement	31			
2.2.2	Logo Background	32			
2.2.3	Don'ts	33			
2.3	Typography	34			

It is the Logo Switzerland's function to:

- make Switzerland visible around the world
- act as an interconnecting element for activities of Swiss organisations abroad
- create a strong brand recognition and recollection
- strengthen the Swiss participants involved
- stand for the quality and importance of the activity

The Logo Switzerland acts as a unifying image for the Swiss activities around the world.

Logo Elements

Two elements compose the Logo Switzerland: the white cross on a red background (the Swiss national emblem) and the text “Switzerland.” in the language of the country where the logo is used. These two elements can not be separated.

Note:

The word “Switzerland” in the specific language is always followed by a full stop, except for applications in languages normally not using punctuation marks (Chinese, Japanese, Thai etc.). The word Switzerland is written in Helvetica font (see 2.1.2 Logo Font).

Logo Design

The Logo Switzerland is used in two design variations, either on white or on red. Do not alter or change the design. Only use original data.

Switzerland.

Switzerland.

2.1

Logo Switzerland

Proportions

The two elements of Logo Switzerland are arranged in a fixed proportion and design. Do not separate the elements. The grid shown provides the proper proportion and layout of the logo. Scaling the logo up or down is allowed (minimum size 10 mm in print and 60 pixel in online media).

The Swiss emblem consists of 30 x 30 units.

2.1

Logo Switzerland

Measurements

The standard measuring constant derived from the logo is "x". "x" is used for the measurements of all applications in this manual.

x = 5 units

2.1

Logo Switzerland

Design Variation Red

Use a white border around the Swiss emblem when displaying it on a red background.

The white border measures 15% of x

2.1

Logo Switzerland

Exclusion Zone

Maintain a consistent exclusion zone around the Logo Switzerland, as shown. This space represents the minimum distance between the logo and any other design element or text.

The minimum distance to be maintained around the Logo Switzerland measures 2x around the logo whatever the size of the logo may be.

1 x = height of the word mark
2 x = minimum distance

Rule of thumb:

Minimum distance = 2 x height of word mark

2.1

Logo Switzerland

Languages

The Logo Switzerland should be wordmarked in the official language of the country where it is used. This guarantees that the origin is clear and understandable.

Note:

The word “Switzerland” in the specific language is always followed by a full stop, except for applications in languages that do not normally use punctuation marks (Chinese, Japanese, Thai etc.). The word Switzerland is written in Helvetica Font.

Reproduction in original size

**Minimum size digital media:
60 pixel**

2.1.2

The font chosen for the wordmark of the basic version of the Logo Switzerland is Helvetica New 75 Bold. This style serves as a basis for the other languages in Latin typefaces.

All language versions share an identical design and proportion. The height of upper case letters is identical in all versions. The wordmark is adjusted to the width of the logo (spacing, distortion).

Logo image files are available in: German, French, English, Italian, Spanish, Hungarian, Dutch, Portuguese, Chinese, Japanese, Russian, Arabic and Turkish. Note: a full stop follows any country name in Latin script.

There are a number of language versions with non-Latin typefaces available. If a required language version is unavailable, a request should be made to Presence Switzerland. Do not recreate individual logos.

The Logo Switzerland is used outside of Switzerland for publications, events, exhibitions, congresses and other activities that are in close relation to Switzerland and help building the country's image.

The guidelines documented in this manual are binding for all applications of the logo. Strict compliance with these guidelines is the basis for a strong and consistent appearance of Switzerland abroad.

2.2.1

The Logo Switzerland must always be displayed prominently on all design collateral. The normal position of the logo is on the bottom right (or on the top right for digital media). As a second choice, the logo may be positioned in the middle of a page if no other design elements appear. Examples of logo positioning can be found in chapter 3.

A minimum distance between the logo and any other element as indicated in 2.1 Exclusion Zone must be observed in all applications.

Logo Usage Logo Placement

2.2.2

The Logo Switzerland may be displayed in red with black text on a white background or with a white border and white text on a red background. The black and white version shown here is only to be used in black and white communications as an exception.

Logo Usage Logo Background

2.2.3

Do not display the Logo Switzerland with alternative colours, additional borders, distorted text or on coloured backgrounds (except red backgrounds) or other fonts.

Logos must be taken from the original image file provided. Only the size of the logo may be changed while maintaining the proper proportions.

Logo Usage Don'ts

Only Helvetica fonts should be used. If for technical reasons Helvetica fonts are not available, use Arial. For non-Latin scripts, find a similar font to Helvetica/Arial.

For bodytext of all advertising material always use Helvetica/Arial or a Helvetica-like font.

For internet applications the recommended font is Verdana.

HEX #CCCCCC

Images are an integral part of the Corporate Identity. Like all other graphic aspects, images reflect Switzerland's brand values. Therefore, the right choice of images is crucial for the communication abroad.

Central elements of the Swiss world of images are the Alpine habitat and Switzerland's people.

The Alpine environment and its characteristic features on the one hand evoke strong associations with Switzerland. On the other hand Switzerland's people make the Swiss history, values and achievements become alive and tangible.

2.5

Visual World / Photography

Style

Images within the CI Switzerland are characterised by their natural style. Landscapes and situations taken from everyday Swiss life convey an image of authenticity and believability, as well as an image of a country where high quality matters. For this reason, photos must not be artificially changed or manipulated. Poor quality pictures must not be used.

Colours

Wherever possible, images should contain Switzerland's national colours, red and white. They should be part of a natural context, for example in backgrounds, clothing or accessories. They should never give the impression of having been added to the picture artificially.

2.5

Visual World/Photography

Composition/Content

Every picture should tell a little story. Create suspense in the composition of the picture by using contrasts (small/large, close/far, bright/dark, etc.), special angles or an unusual focus.

Show a lively picture of a modern, active Switzerland in all the segments of today's life from contemporary architecture to traditional customs and from natural spectacles to nano-technology.

Avoid the ordinary and obvious.

The CI Switzerland is subject to the guidelines of the CD Confederation. Within this framework the Logo Confederation has to appear on all means of communication. On multi-page material it is placed on the back, on one-page material it is positioned on the bottom left of the page. For more information see chapter 3.

2.6

The usage of the Logo Confederation is restricted to the applications defined in the CD Confederation. For details see the CD manual on www.bk.admin.ch and the guidelines of every department.

Part of the publications used within the CI Switzerland are published in cooperation with sponsors or partners. It is important to display the Logo Switzerland and the logos of all partners/sponsors involved in a consistent manner.

2.7

Logos Partners/Sponsors

The Logo Switzerland is always the main logo. All other logos of partners, sponsors etc. must not compete with the Logo Switzerland.

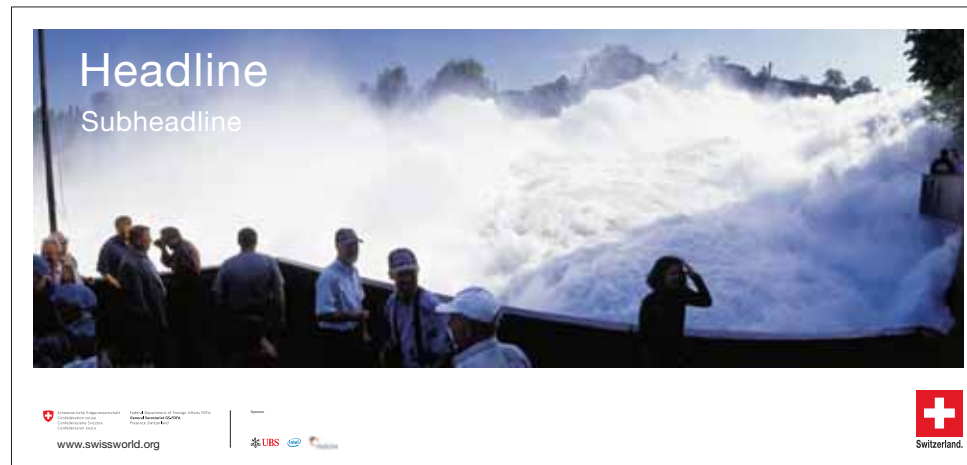

For two-sided material the Logo Switzerland is placed on the front, the Logo Confederation and partner/ sponsor logos are always placed on the back. On one-sided material the Logo Switzerland is placed on the bottom right, the Logo Confederation on the bottom left.

Brochure

Advertisement

Billboard

All stationery and communication material contains an URL. The placement of URLs follows a consistent line.

Publications within the CI Switzerland

On all printed communication material published within the framework of the CI Switzerland the URL is always placed on the bottom left, aligned to the wordmark of the Logo Switzerland. The height of the text is identical to the height of the wordmark.

On printed material with two or more sides the URL stands alone, on the front.

On one-sided material the URL is placed underneath the Logo Confederation.

The CI Switzerland does not provide any own stationery as usually stationery within Swiss activities abroad are used by an official unit of the Swiss Confederation. Therefore, all stationery shown in this manual are applied from the guidelines of the Swiss Confederation.

The Logo Switzerland appears on all stationery as a campaign logo.

3.1.1

Preferred size for letterhead body text is 10 pt (Arial).

The letterhead template provided is standard A4 size (210 mm x 297 mm). US partners may adapt the design to American letterhead size, if needed.

The Logo Switzerland is placed on the bottom right of the page on letterheads for use within Switzerland and on the bottom left on letterheads used abroad.

Neither the Logo Confederation nor the Logo Switzerland is displayed on the continuation page.

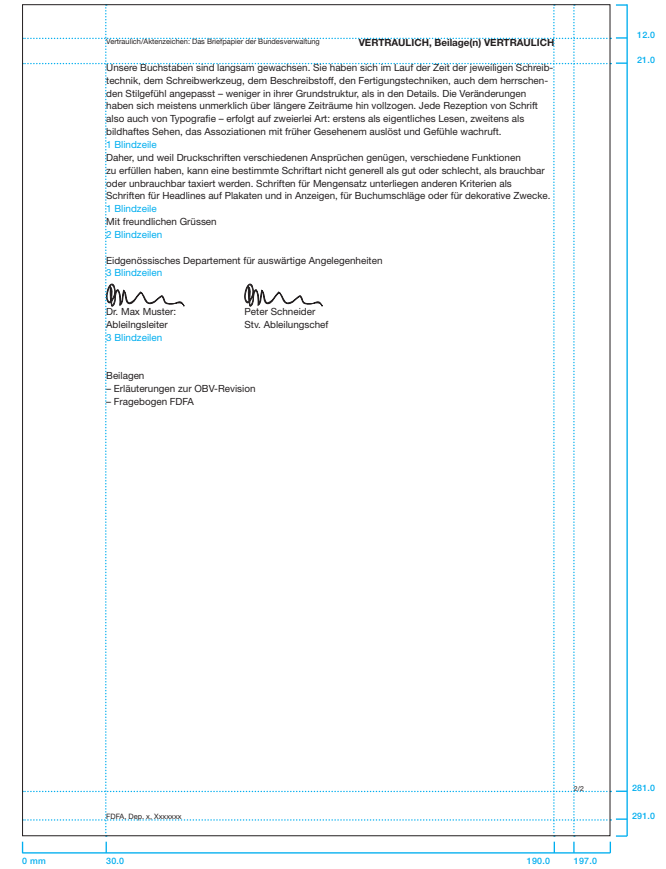

The envelopes used are the official envelopes of the Swiss Confederation.

Letterheads can be published either in colour (red/white/black) or in black and white.

Stationery Letterhead

Letterhead, size A4, scaled down presentation, all measurements in mm

Continuation page

Stationery Letterhead

Letterhead, size A4, scaled down presentation, all measurements in mm

Medienmitteilung - Titel der Medienmitteilung

Unsere Buchstaben sind langsam gewachsen. Sie haben sich im Lauf der Zeit der jeweiligen Schreibtechnik, dem Schreibwerkzeug, dem Beschreibstoff, den Fertigungstechniken, auch dem herrschenden Stilgefühl angepasst – weniger in ihrer Grundstruktur, als in den Details. Die Veränderungen haben sich meistens unmerklich über längere Zeiträume hin vollzogen. Jede Rezeption von Schrift – also auch von Typografie – erfolgt auf zweierlei Art: erstens als eigentliches Lesen, zweitens als bildhaftes Sehen, das Assoziationen.

¶ Blindzeile
 Daher, und weil Druckschriften verschiedenen Ansprüchen genügen, verschiedene Funktionen zu erfüllen haben, kann eine bestimmte Schriftart nicht generell als gut oder schlecht, als brauchbar oder unbrauchbar taxiert werden. Schriften für Mengensatz unterliegen anderen Kriterien als Schriften für Headlines auf Plakaten und in Anzeigen, für Buchumschläge oder für dekorative Zwecke. Schwer lesbare Schriften, sparsam und gekonnt eingesetzt, können die Aufmerksamkeit des Lesers gefangen nehmen, ihn schockieren, provozieren und damit zu genauem Hinsehen und zur Aufnahme der übrigen Bild- oder Textinformationen verleiten.

¶ Blindzeile
Kontakt/Rückfragen:

Dimensions: 0 mm, 30.0, 190.0, 197.0, 12.0, 21.0, 281.0

3.2.2

There are two possible versions of the press kit folder. The version with the white back is used only when there are partner and sponsor logos to be displayed.

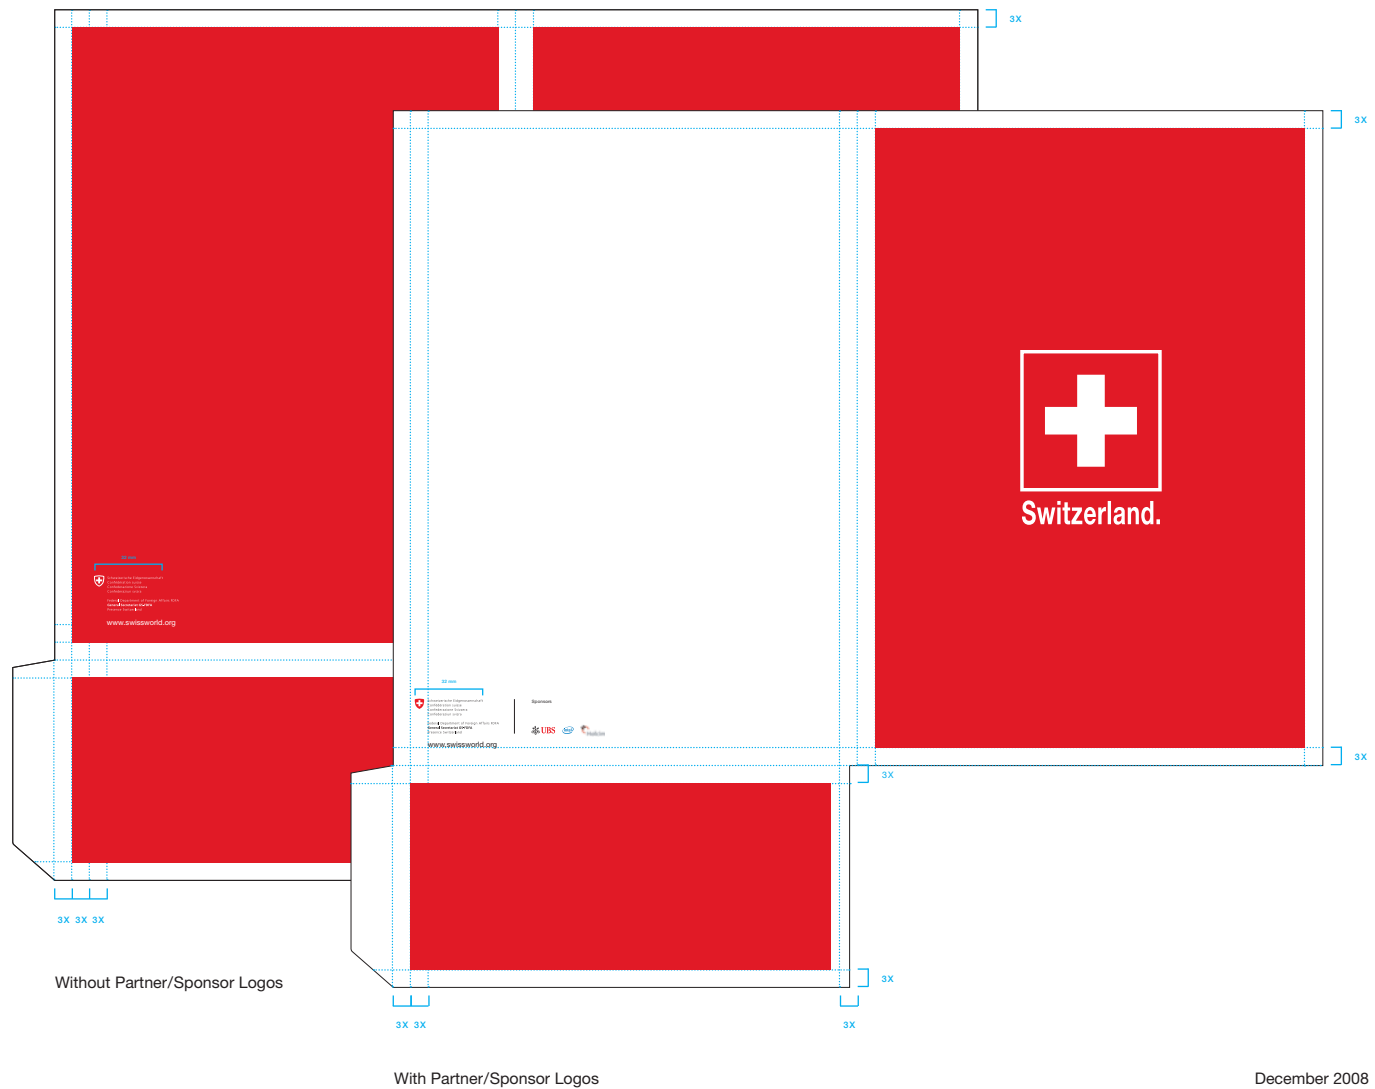

On both versions the Logo Switzerland is placed on the front in the centre.

The Logo Confederation is displayed on the back bottom left.

Partner and sponsor logos are placed on the back bottom left. Note that a vertical bar separates the sponsor logos from the Logo Confederation which is always placed on the very left.

Publications Press Kit Folder

62

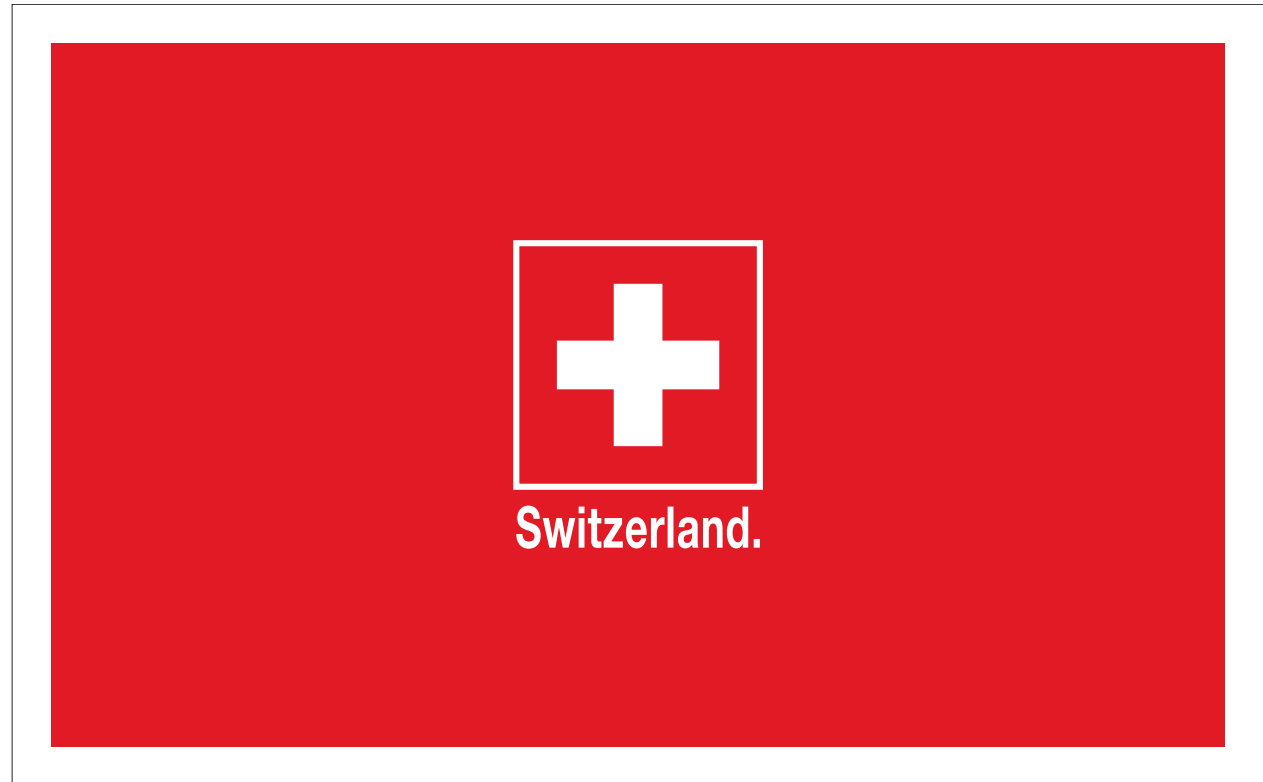

3.2.3

Backdrops are usually used without partner/sponsor logos. There are two possible layouts for the backdrop.

Layout 1:

Logo Switzerland in the center on a red background.

Publications Backdrop

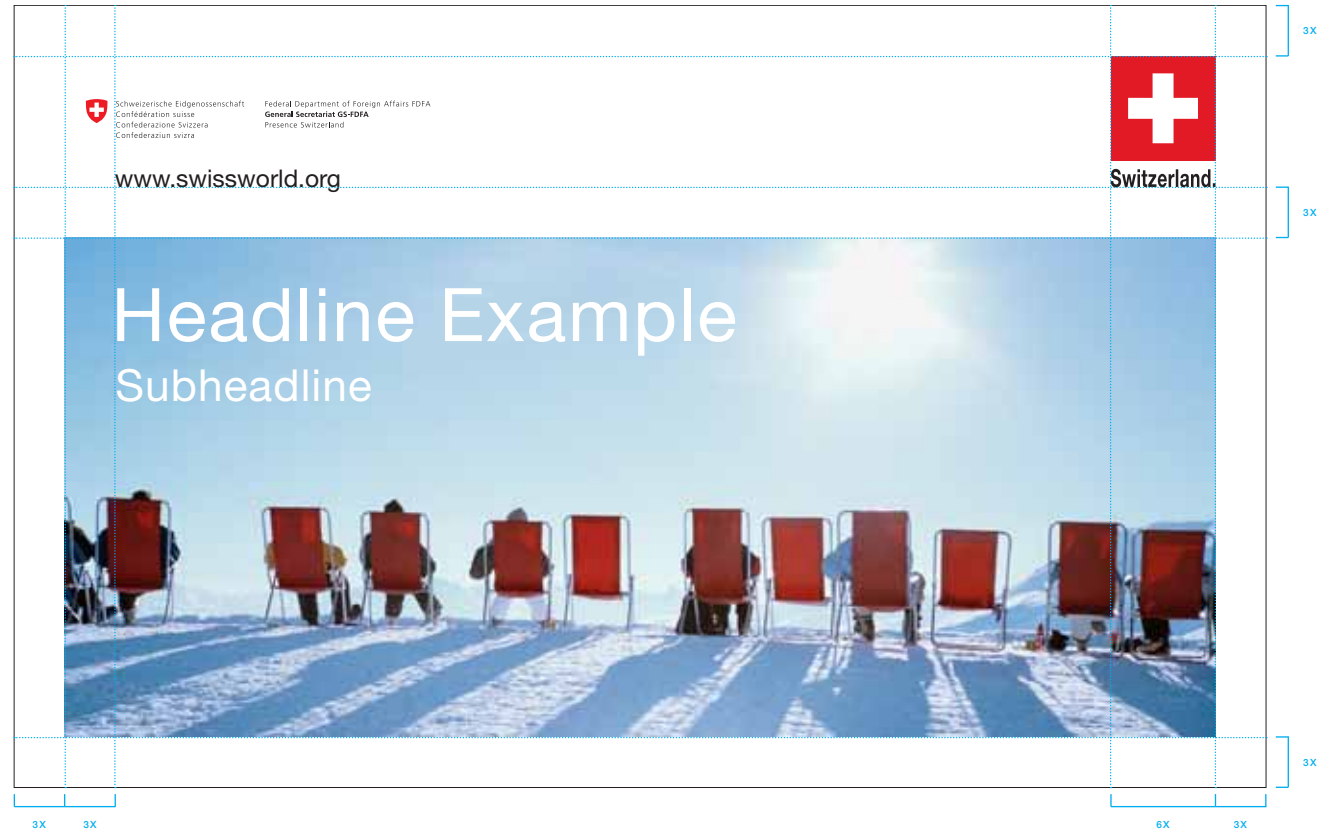

3.2.3

Publications Backdrop

64

Layout 2:

Logo Switzerland on the top and a picture with or without text underneath.

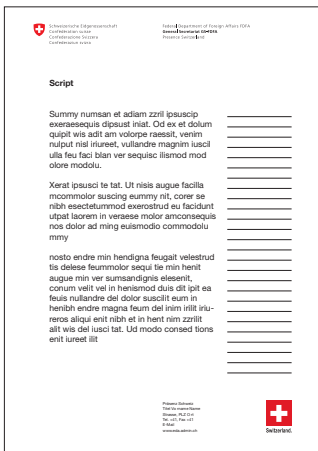

3.2.4

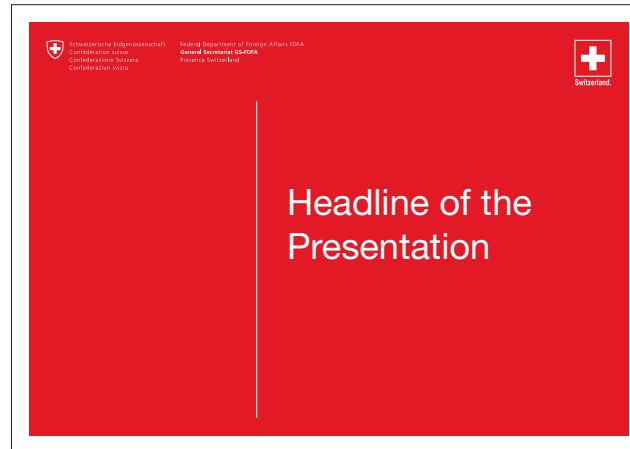

The Logo Switzerland must be displayed on every single page, top right. The Logo Confederation, placed on the top left, is used on the cover only.

Speaker's manuscript:

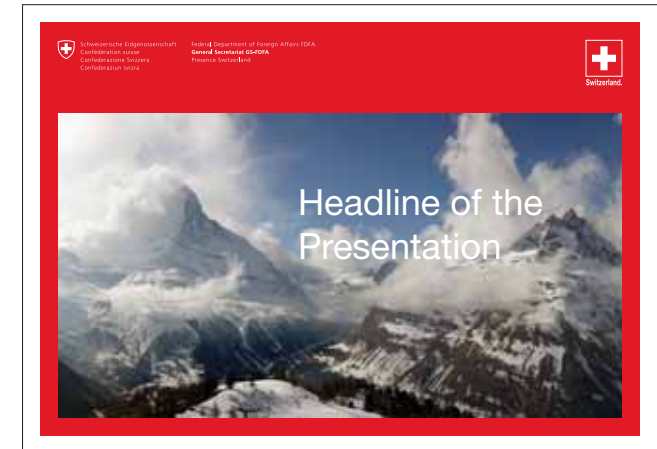

Use 16 pt or more for the text. Leave enough space on the right side for handwritten notes.

Respect all minimum distance requirements.

The guidelines for multimedia and electronic media differ slightly from the print applications due to technical preconditions. Nevertheless, they need to be followed as strictly as in other communication channels.

The Logo Switzerland is placed on the top right in all multimedia applications.

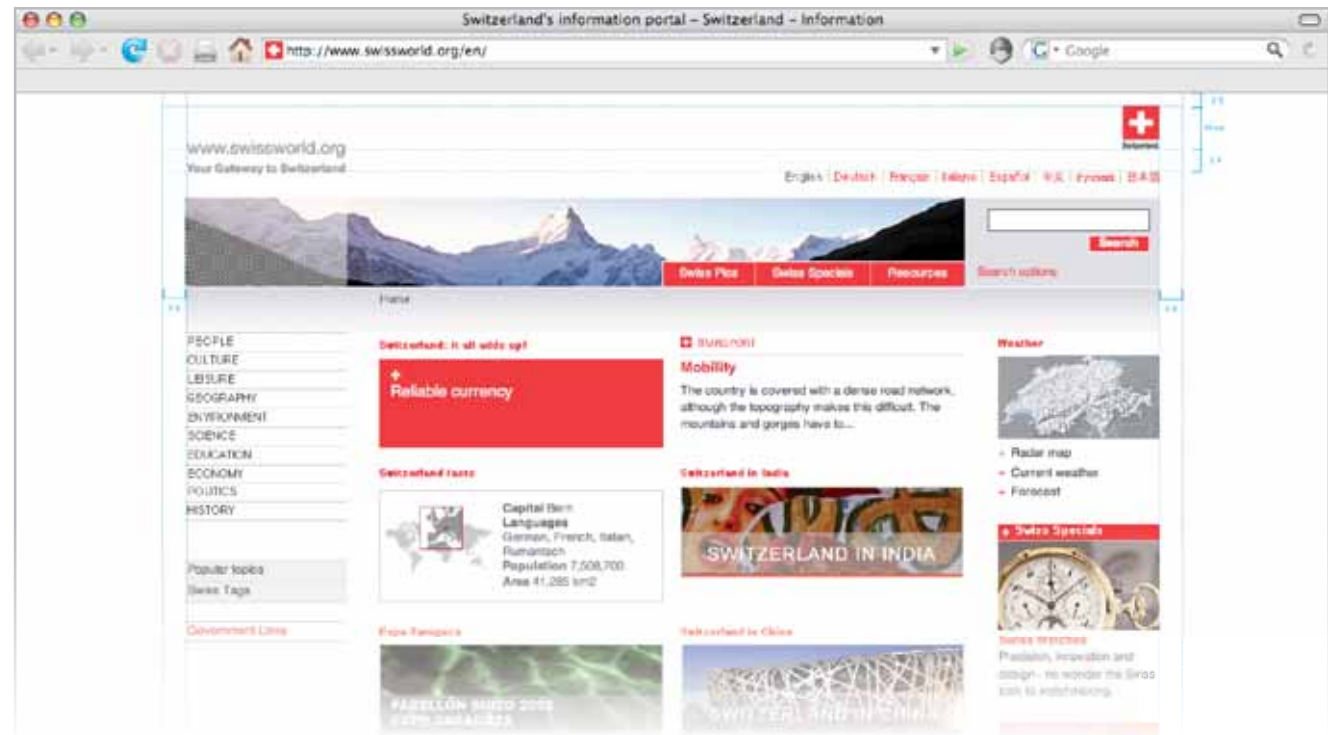

3.4.1

Multimedia Website

84

The Logo Switzerland should always appear in red on white background, and the minimum size allowed online is a height of 60 pixels. Use Red #E11A27 for the logo as well as for the banner, if needed.

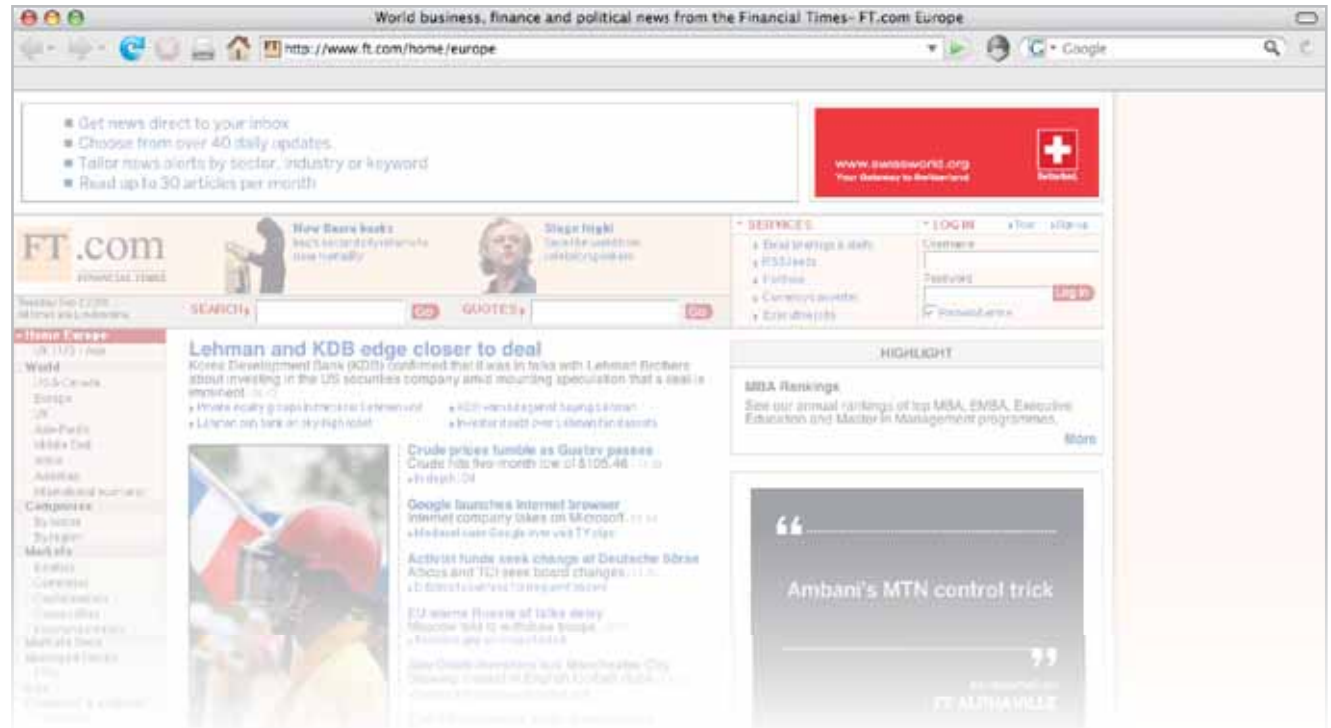

The Logo Switzerland is placed on the top right.

3.4.2

Multimedia Banner

Follow the general guidelines of the CI Switzerland when creating banners. Minimum height of the banner is 81 pixel.

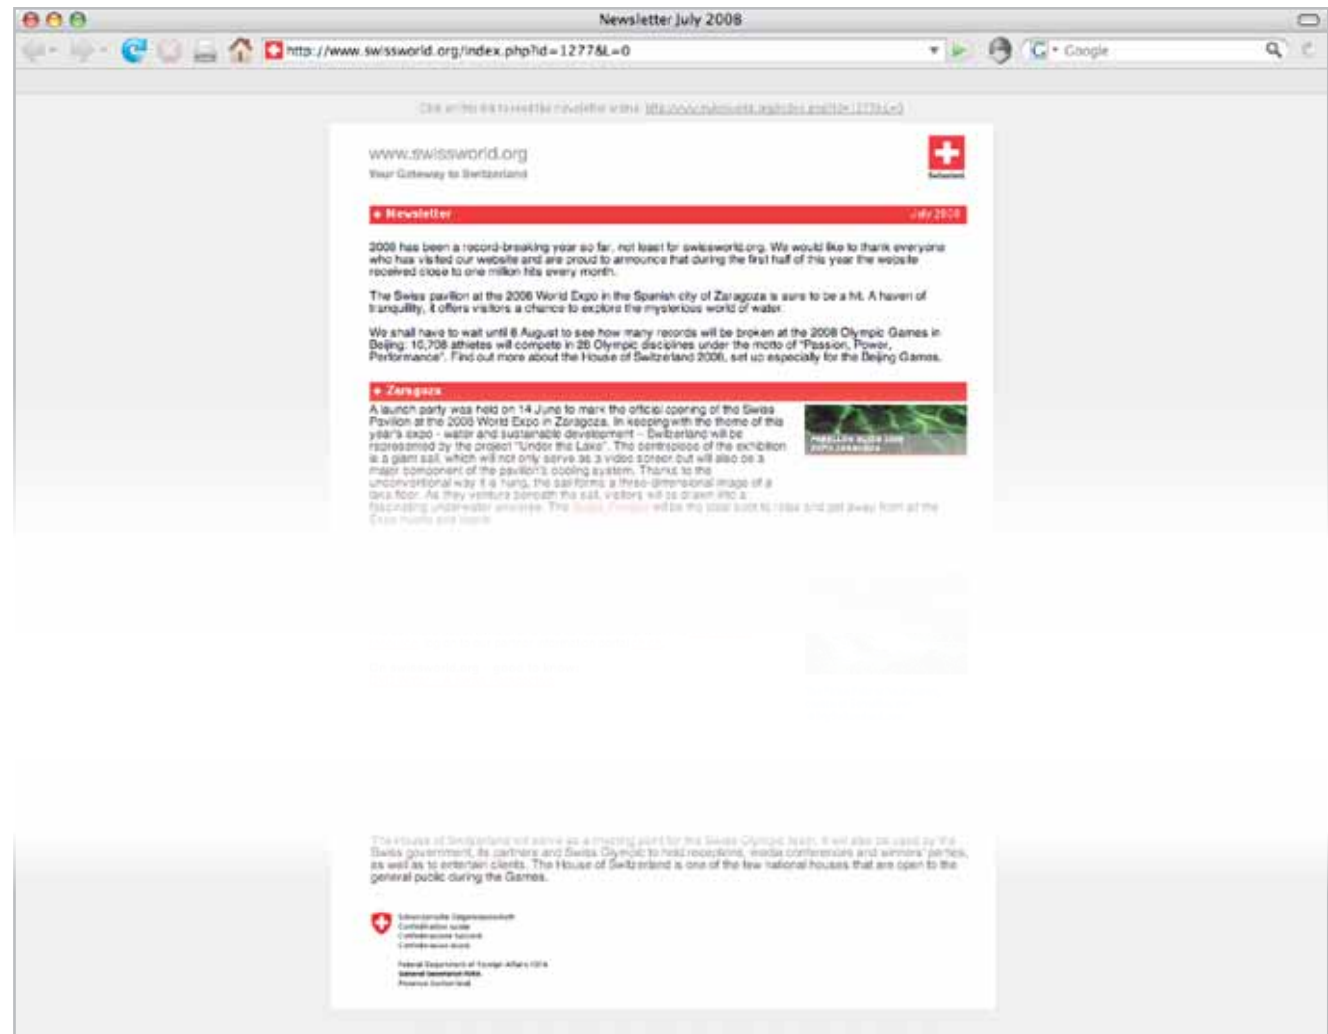

3.4.3

Multimedia Newsletter

86

The layout of the newsletter corresponds with the website. The Logo Switzerland is placed on the top right. The Logo Confederation is placed on the bottom left.

3.4.4

For CD-Covers and CD-Booklets follow the layout principles of the brochure. Always use a photo on the front of the cover. Draw a white border around photos or coloured backgrounds.

Use a red background if there are no partners or sponsors to display.

Display Logo Switzerland on the bottom right of the front. Place the Logo Confederation on the back.

Place the URL on the bottom left on the front.

4.4.4.2	Banner	138		

Bilateral projects are campaigns run jointly between Switzerland and another country. The projects take place predominantly abroad, but some activities might take place in Switzerland as well.

As the bilateral projects are often in connection to a jubilee of friendship or diplomatic relationship, a special logo is used to express the bilateral connection between the two countries.

All communication means of the bilateral projects are subject to the guidelines of CI Switzerland.

To express the bilateral approach bilateral campaigns are allowed to use a special logo. The design and usage of this logo is defined in this chapter.

4.2.1

The logo for bilateral campaigns is composed of the Logo Switzerland on the left and the name of the partner country on the right followed by a full stop.

This new composed logo takes the place of the Logo Switzerland on all institutional and promotional material, as shown in chapter 3.

Font

The font for the Latin script version is Helvetica 75 Bold.

Logo

Composed Logo

4.2.1

Languages

There are two possible language versions for the composed logo: an English version and a native version in the official language of the partner country.

In the English version both the name and the wordmark of the Logo Switzerland are in English.

In the native version both the name and the wordmark of the Logo Switzerland are in the official language of the partner country.

Whether the English or the native version (or both) is used depends on the general local usage of logos.

Logo

Composed Logo

4.2.1

Colours

The composed logo should appear in colour whenever possible, red and black on a white background or white on a red background. As an exception the logo may also be used in black and white.

Logo

Composed Logo

4.2.1

Size

In general, the minimum height of the composed logo in print is 10 mm.

Exception:

If the format of the printed material is smaller than A5 portrait the minimum height is 6 mm.

Exclusion Zone

Maintain a consistent exclusion zone around the composed logo, as shown. This space represents the minimum distance between the logo and any other design element or text.

Logo Composed Logo

Minimum exclusion zone

4.2.2

If an official theme is used for the bilateral project, the theme is placed at the top of the composed logo. Align the first letter/figure of the theme with the first letter of the country name.

Language

The theme is always used in the same language as the composed logo, i.e. either in English or in the official language of the partner country.

Logo Theme

Composed logo with theme, native version

Composed logo with theme, English version

4.2.2

Font

The font for Latin script versions of the theme is Helvetica 75 Bold.

Size

The type size of the official theme is defined by its height which is always 1 “x”.

If the theme would run longer than the name of the partner country, the theme – as an exception – is displayed on two lines.

Logo Theme

4.2.3

Do not separate the Logo Switzerland from the text. Do not create composed logos with partner or sponsor logos.

Do not alter the text, colours, proportions or design of the bilateral project logos. Do not place the logos over alternative colours or photo backgrounds.

Logos must be taken from the original image file provided. Only the size of the logo may be changed while maintaining the proper proportions.

Logo Don'ts

105

In addition to the general guidelines for the visual world described in chapter 2, use photographs that express the bilateral aspect of the project, i.e. photographs that combine the identities of the two countries in one picture.

4.3.1

Visual World/Photography Content

107

The photographs shown here are examples for the above mentioned binational content.

Every picture should tell a little story. Create suspense in the composition of the picture, by using contrasts (small/large, close/far, bright/dark, etc.), special angles or an unusual focus.

Avoid the ordinary and obvious.

The applications for the bilateral projects correspond with the guidelines described in chapter 3, apart from exceptions shown below. Refer to chapter 3 for details, measurements etc.

The exceptions defined in this chapter are the only exceptions allowed within the communication for bilateral projects.

Applications Stationery

The CI Switzerland does not provide any own stationery for bilateral projects as these projects are led by Presence Switzerland, an official unit of the Swiss Confederation. Therefore, all stationery shown here are applied from the guidelines of the Swiss Confederation.

4.4.1.1

Preferred size for letterhead body text is 10 pt (Arial).

The letterhead template provided is standard A4 size (210 mm x 297mm). US partners may adapt the design to American letterhead size, if needed.

The composed logo is placed on the top right of the page. This applies to letterheads for use within Switzerland as well as to letterheads used abroad.

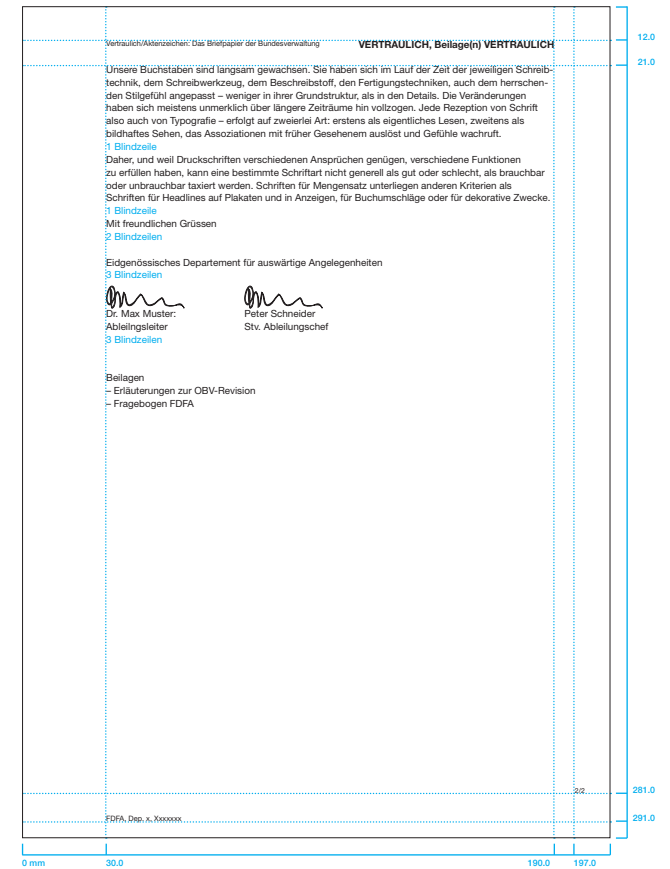

Neither the Logo Confederation nor the composed logo is displayed on the continuation page.

The envelopes used are the official envelopes of the Swiss Confederation.

Applications Stationery Letterhead

Letterhead, size A4, scaled down presentation, all measurements in mm

Continuation page

4.4.1.1

The black and white version should only be used if there is no colour-printer available.

Applications Stationery Business Card

Business Card

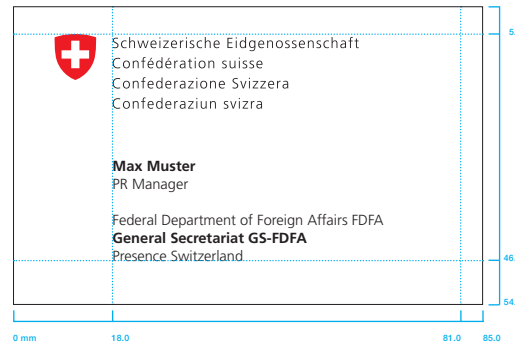

Business cards are printed double-sided.

The front is used for representation, containing the name and function of the holder plus the department and organisational unit underneath the Logo Confederation.

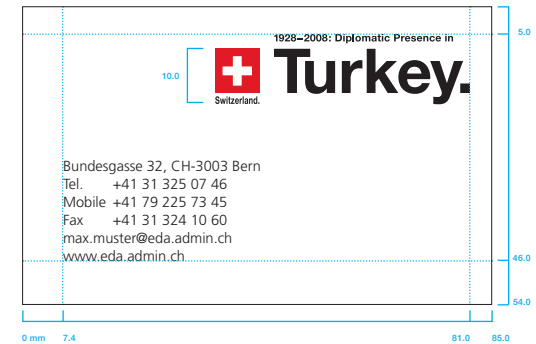

The back is reserved for detailed information. It can be adapted to the specific needs of the organisational unit within the framework of the CD Confederation. The composed logo for bilateral projects is placed on the top right.

Business cards are printed in one language only. For additional languages additional business cards will be printed.

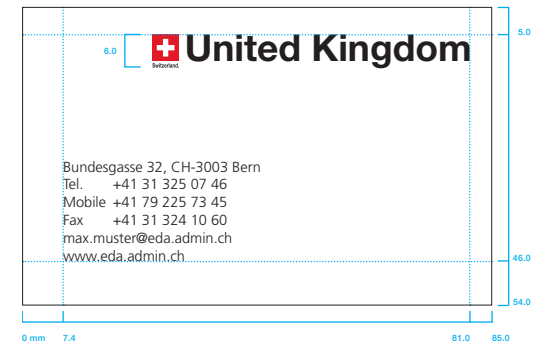

Always use the recommended text size found in the business card template.

Front, size 85 × 54 mm, scaled down presentation, all measurements in mm

Back, maximum height of composed logo 10 mm

Back, minimum height of Logo Switzerland 6 mm

4.4.1.4

Applications Stationery Name Tag

Name Tag

On name tags the composed logo is placed on the bottom right.

Minimum height of the Logo Switzerland is 6 mm, maximum height of the composed logo is 10 mm.

Maximum height composed logo, 10 mm

Minimum height Logo Switzerland, 6 mm, recommended version

Publications

Publications such as press releases, brochures or information leaflets for bilateral projects should display the identity of Switzerland and the bilateral connection between Switzerland and the other country.

Apart from the consistent usage of the logos a specific visual identity should be established.

Therefore, all publications should express the bilateral aspect, communicating the values of both Switzerland and the host country.

4.4.2.1

Preferred size for letterhead body text is 10 pt (Arial), for heading it is 21 pt bold (Arial).

The composed logo is placed on the top right of the page.

Neither the Logo Confederation nor the composed logo is displayed on the continuation pages.

Press releases can be published either in colour (red/white/black) or in black and white.

4.4.4

Applications

Multimedia

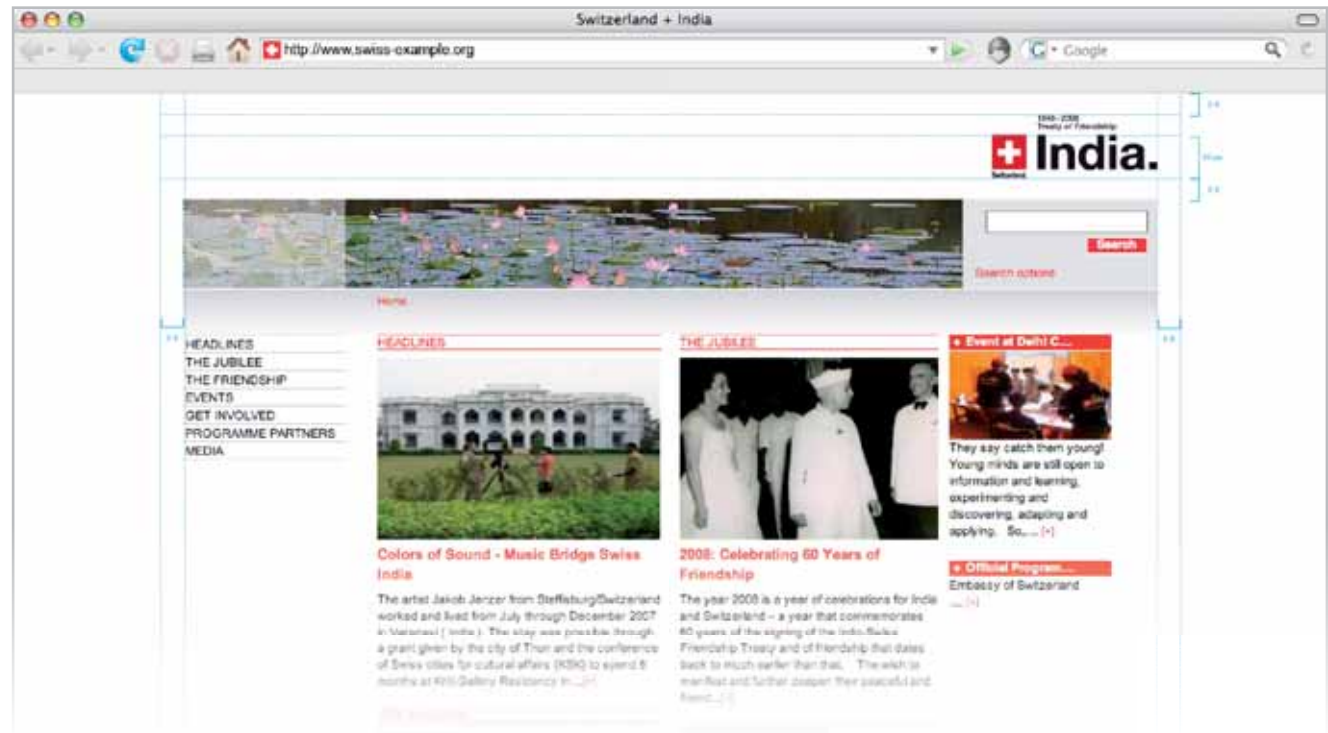

The guidelines for multimedia and electronic media differ slightly from the print applications, due to technical preconditions. Nevertheless, they need to be followed as strictly as in other communication channels.

4.4.4.1

The composed logo should always appear in colour on a white background, and the minimum size allowed online is a height of 60 pixels. Use Red #E11A27 for the logo.

The composed logo is placed on the top right.

Applications Multimedia Website

4.4.4.2

Follow the general guidelines of the CI Switzerland when creating banners. Minimum height of the banner is 81 pixel.

Use Red # E11A27 for the logo as well as for the background, if needed.

Applications Multimedia Banner

Example House of Switzerland

5 Logo Applications for Subsidised Activities

5.1	Definition	140
5.2	Umbrella Placement	141
5.2.1	Examples	142
5.2.2	Don'ts	144
5.3	Subordinate Placement	145

Next to its own activities Presence Switzerland also finances activities of third parties. Third party project owners are free to adapt the entire CI Switzerland for their activities. If this is not the case, Presence Switzerland in return for financial or material support, gets the opportunity to display the Logo Switzerland or its own logo in the communication material of the activities.

The correct placement of the logo must be examined as the case arises. There are two possible alternatives: umbrella placement and subordinate placement.

In order to create a uniform appearance of Switzerland, ideally the Logo Switzerland should be displayed as an umbrella brand whenever Presence Switzerland sponsors activities together with other Swiss organisations or companies. The umbrella placement defines Switzerland as the sender and unites all Swiss organisations and companies.

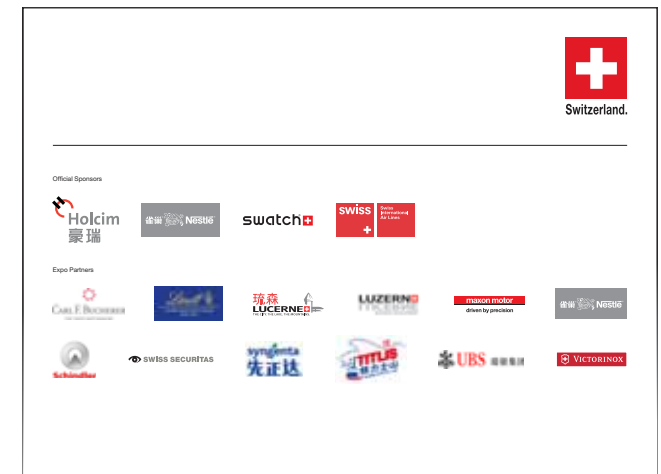

5.2.1

As an umbrella brand the Logo Switzerland is placed either on the right or on top of the other logos. The Logo Switzerland and the remaining logos on the left or underneath are always separated by a bar.

The Logo Switzerland should be recognisably bigger than the other logos.

Respect all minimum distance requirements.

Umbrella Placement Examples

5.2.1

Umbrella Placement Examples

Use the layout of the sponsors' space defined above in portrait as well as on landscape format.

5.2.2

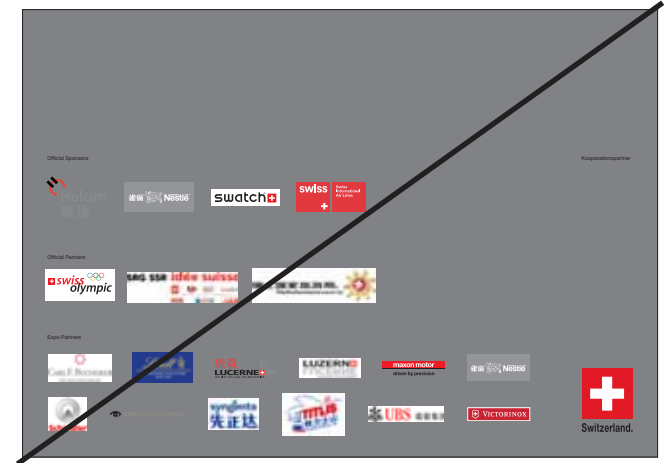

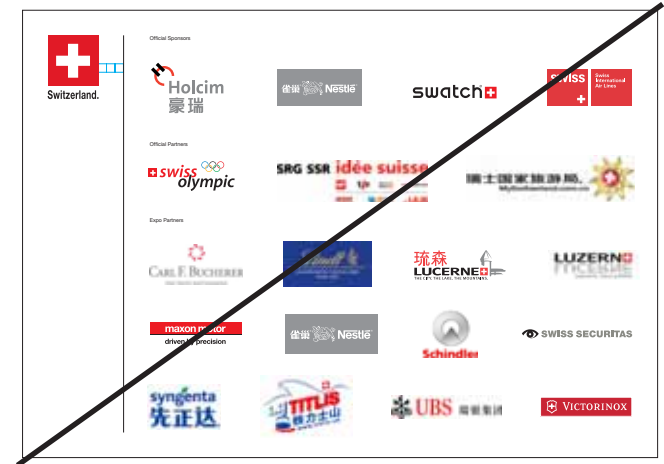

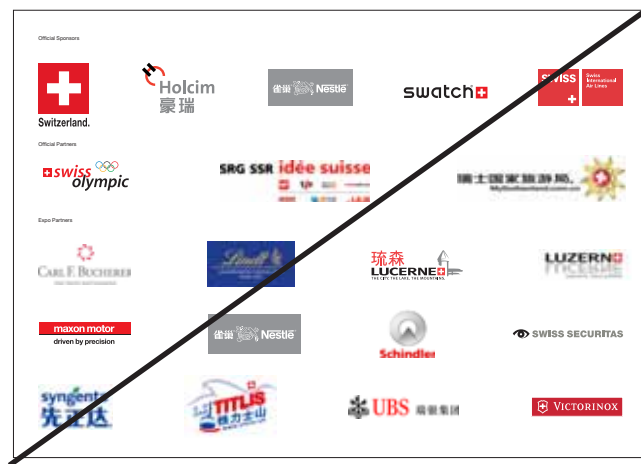

Umbrella Placement Don'ts

Do not use any other layouts of the sponsor block than the one defined above.

Do not create composed logos with other partner or sponsor logos.

Do not alter the text, colours, proportions or design of the Logo Switzerland.
Do not place the Logo Switzerland over colours other than red or white or over photo backgrounds.

The Logo Switzerland must be taken from the original image file provided. Only the size of the logo may be changed while maintaining the proper proportions.

Where an umbrella placement is not possible, the Logo Presence Switzerland must be displayed within the sponsor placement structure.

The same applies for activities where some of the other sponsors are non-Swiss companies or institutions.

5.3

The height of the logo should be identical with the height of the other logos displayed. The minimum width of the Logo Presence Switzerland is 32 mm.

Subordinate Placement

6 Logo Applications for Partner Organisations

6.1	Definition	148
6.2	Logo	149
6.2.1	Placement	150
6.2.2	Don'ts	153

Major international events or programmes/campaigns initiated by Presence Switzerland are often realised together with partner organisations.

All communication materials for the overall programme or campaign published by Presence Switzerland are applied to the entire CI Switzerland.

Where institutional partner organisations are publishing their own communication material within joint activities or general country communication activities, the Logo Switzerland can be integrated as a bonding element to the overall programme or campaign, increasing the recognition of the brand Switzerland.

The guidelines in this chapter show possibilities of integrating the Logo Switzerland into communication materials of partner organisations.

For details on the logo (colours, fonts, size, etc.) please refer to chapter 2.

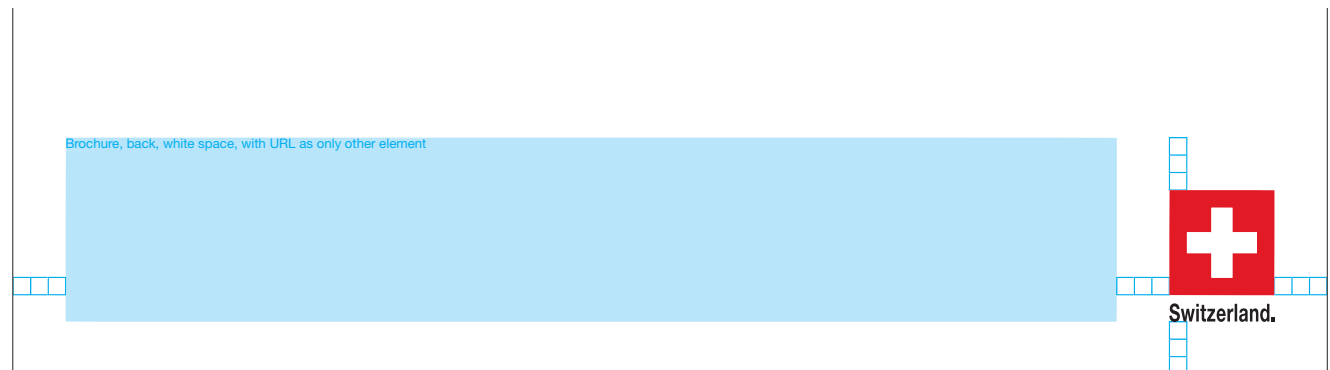

6.2.1

The Logo Switzerland should have as much visual impact as possible. Always place the logo on a white background and use ample white space around it.

Whenever possible, the logo should be placed either on the top right or bottom right.

Logo Placement

150

6.2.1

Wherever possible use more white space around the logo than just the minimum exclusion zone.

Logo Placement

151

Large-scale format, i.e. top of backdrop, recommend distance to other graphic elements

Large-scale format, i.e. top of backdrop, minimum exclusion zone

6.2.1

Recommended placement of the Logo Switzerland is on the top right or bottom right.

Logo Placement

152

6.2.2

Do not display the Logo Switzerland with alternative colours, additional borders, distorted text, other fonts or on coloured backgrounds.

Do not integrate the Logo Switzerland into a sponsor block.

Logos must be taken from the original image file provided. Only the size of the logo may be changed while maintaining the proper proportions.

Logo Don'ts

153

7 Major International Events

7.3.2.7	Postcards	201		
7.3.3	Advertising	202		
7.3.3.1	Newspaper Ad	203		
7.3.3.2	Poster	205		
7.3.3.3	Billboard	206		
7.3.4	Multimedia	208		
7.3.4.1	Website	209		
7.3.4.2	Banner	210		

There are two major international events featuring a special appearance of Switzerland: the Olympic Games and the World Expositions. The presentation of Switzerland takes place in the House of Switzerland, assembled every Olympic Games, and the Swiss Pavilion for both Grade A and Grade B World Expositions.

House of Switzerland and Swiss Pavilion are independent brands. Therefore, the guidelines for the graphic design elements and design collateral of these two brands are outlined in a chapter of its own.

For both major events a special logo is used in communication as well as for exhibition elements. As the CI Switzerland applies to these major international events, the use of these logos corresponds with the general guidelines described in chapter 2 and 3 with the exception of some special applications shown in this chapter.

7.2.1

The logo for the House of Switzerland is composed of the Logo Switzerland and the additional text elements “House of Switzerland” + the host country/city and the year. Therefore, the logo always consists of two lines. The two elements are arranged in a fixed proportion and design. Do not alter or change the logo or separate its elements.

Sometimes the combination of host city/country name and year are protected by the host country. Make sure that these elements can be used before creating a new logo and seek appropriate approvals on the final design.

Font

The font for the Latin script version is Helvetica 95 Black.

Logo

House of Switzerland

7.2.1

Colours

The Logo House of Switzerland should appear in colour whenever possible, red on a white background or white on a red background. As an exception the logo may also be used in black and white.

Logo

House of Switzerland

7.2.1

Size

In general, the minimum height of the Logo House of Switzerland in print is 10 mm.

Exception:

If the format of the printed material is smaller than A5 portrait, the minimum height is 6 mm.

Exclusion Zone

Maintain a consistent exclusion zone around the Logo House of Switzerland as shown. This space represents the minimum distance between the logo and any other design element or text.

Logo

House of Switzerland

Recommended exclusion zone page

Minimum exclusion zone

7.2.1

Language

The text “House of Switzerland” may also be displayed in the language of the Olympic host country. In that case the wordmark of the Logo Switzerland must be displayed in the language of the host country as well.

Logo

House of Switzerland

160

7.2.2

The logo for the Swiss Pavilion is composed of the Logo Switzerland and the additional text-elements “Swiss Pavilion” + the “Expo” and the year + the name of the host city or country. Therefore, the logo always consists of two lines. All the elements are arranged in a fixed proportion and design. Do not alter or change the logo or separate its elements.

Sometimes the combination of host city/ country name and year are protected by the host city or country. Make sure that these elements can be used before creating a new logo and seek appropriate approvals on the final design.

Font

The font for the Latin script version is Helvetica 95 Black.

Logo Swiss Pavilion

7.2.2

Colours

The Logo Swiss Pavilion should appear in colour whenever possible, red on a white background or white on a red background. As an exception the logo may also be used in black and white.

Logo Swiss Pavilion

7.2.2

Size

In general, the minimum height of the Logo Swiss Pavilion in print is 10 mm.

Exception:

If the format of the printed material is smaller than A5 portrait the minimum height is 6 mm.

Exclusion Zone

Maintain a consistent exclusion zone around the Logo Swiss Pavilion, as shown. This space represents the minimum distance between the logo and any other design element or text.

Logo Swiss Pavilion

7.2.2

Language

The text of the logo may also be displayed in the language of the Expo host country. In that case the wordmark of the Logo Switzerland must be displayed in the language of the host country as well.

As an exception and in appropriate cases the Logo Switzerland may be displayed in English or the appropriate Latin script.

Logo Swiss Pavilion

7.2.3

All major international events are supported by either partner organisations or sponsors.

Partners and sponsors have to be differentiated by categories. Categories are defined by the project owner. See example on the right.

Logo Partner/Sponsor Logos

165

Official Sponsors

Official Partners

Expo Partners

7.2.4

Logo Don'ts

Do not separate the Logo Switzerland from the text. Do not create composed logos with partner or sponsor logos.

Do not alter text, colours, proportions or design of the major international events logos. Do not place the logos over alternative colours or photo backgrounds.

Logos must be taken from the original image file provided. Only the size of the logo may be changed while maintaining the proper proportions.

The applications for the major international events correspond with the guidelines described in chapter 3, apart from exceptions shown below. Refer to chapter 3 for details, measurements etc.

The exceptions defined in this chapter are the only exceptions allowed within the communication for major international events.

Application Systems Stationery

The CI Switzerland does not provide any own stationery for House of Switzerland and Swiss Pavilion as these projects are led by Presence Switzerland, an official unit of the Swiss Confederation. Therefore, all stationery shown here is applied from the guidelines of the Swiss Confederation.

The logos House of Switzerland resp. Swiss Pavilion appear on all stationery.

7.3.1.1

House of Switzerland

Preferred size for letterhead body text is 10 pt (Arial).

The letterhead template provided is standard A4 size (210 mm x 297 mm). US partners may adapt the design to American letterhead size, if needed.

The Logo House of Switzerland is placed on the top right of the page. This applies to letterheads for use within Switzerland as well as to letterheads used abroad.

Neither the Logo Confederation nor the Logo House of Switzerland is displayed on the continuation page.

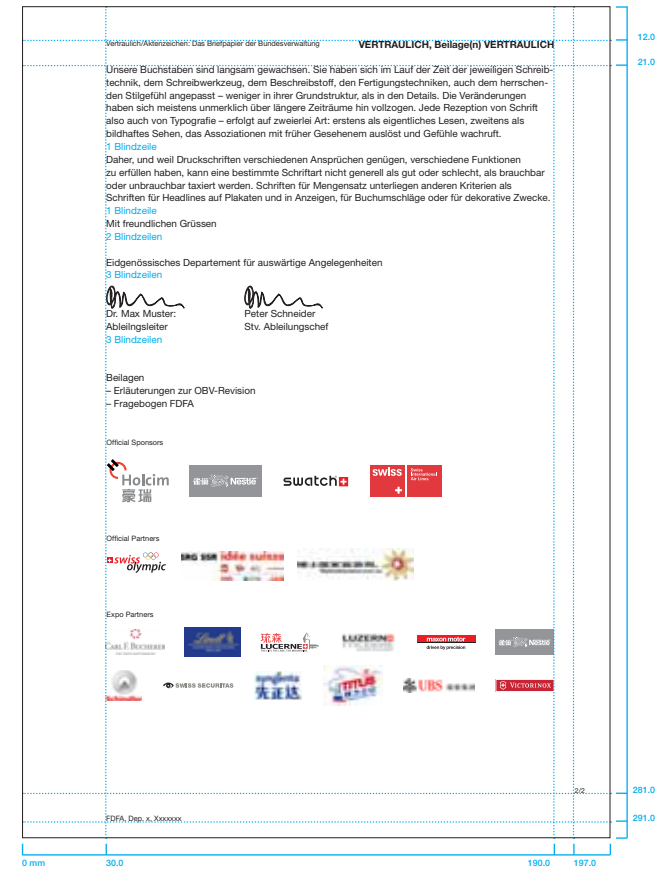

Partner/sponsor logos are displayed at the very end of the text, underneath the part with signatures and list of attachments.

The envelopes used are the official envelopes of the Swiss Confederation.

Application Systems Stationery Letterhead

Continuation page

7.3.1.3

Application Systems Stationery Business Card

Business cards are printed double-sided.

The front is used for representation, containing the name and function of the holder plus the department and organisational unit underneath the Logo Confederation.

The back is reserved for detailed information. It can be adapted to the specific needs of the organisational unit within the framework of the CD Confederation. The Logo House of Switzerland resp. Swiss Pavilion is placed on the top right.

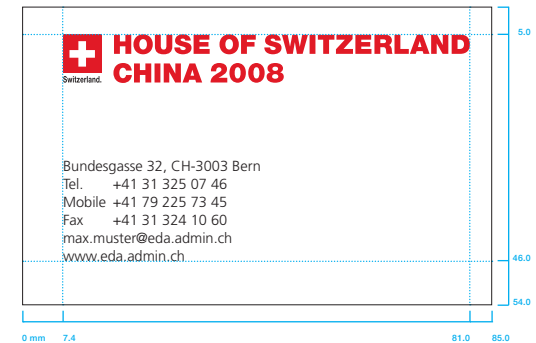

Business cards are printed in one language only. For additional languages additional business cards will be printed.

Always use the recommended text size found in the business card template.

Business Card House of Switzerland

7.3.1.5

Application Systems Stationery Backstage Pass

177

Front

The Logo House of Switzerland resp. Swiss Pavilion is placed on the top right of the backstage pass.

The size of the backstage pass shown on the right is a possible example. There is no regulated size for the backstage pass. It is important, though, that the logo is not smaller than minimum height. If possible use the full width of the backstage pass for the logo.

Minimum height of the logo is 6 mm,
maximum height is 14 mm.

Front backstage pass House of Switzerland

Front backstage pass House of Switzerland (Chinese)

7.3.1.5

Back

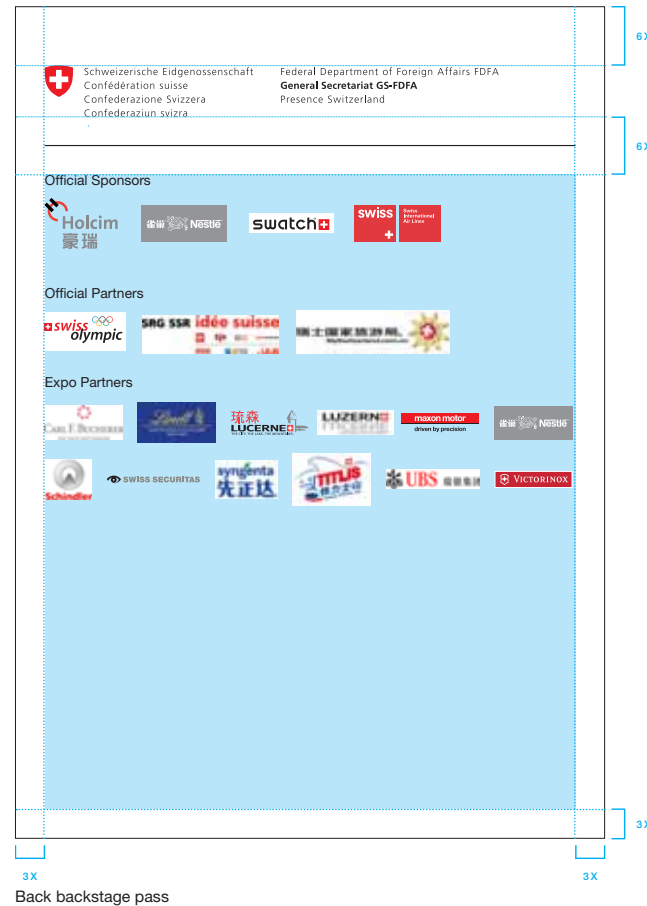

The Logo Confederation is placed on the top left of the backstage pass.

Minimum height of the logo is 6 mm, maximum height is 14 mm.

Logos of partner/sponsors are displayed in hierarchical order on the back of the backstage pass, underneath the Logo Confederation. Note that Logo Confederation and partner/sponsor logos are always separated by a horizontal line.

Application Systems Stationery Backstage-Pass

178

7.3.1.5

Colours

Primary colours for the backstage passes are red, white and black, as defined in chapter 2.5.

Secondary colours are used to identify the group and function of the carrier.

Application Systems Publications

Publications such as press releases, brochures or information leaflets should display the identity of Switzerland.

Apart from the consistent usage of the logos a specific visual identity should be established and followed to communicate the Brand Identity Switzerland.

7.3.2.1

House of Switzerland

Preferred size for letterhead body text is 10pt (Arial), for heading it is 21pt bold (Arial).

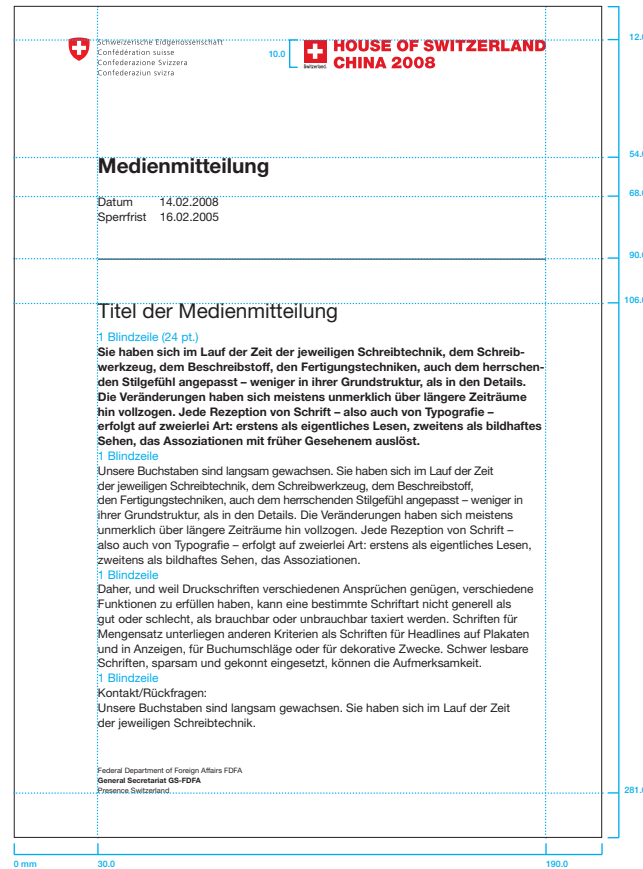

The Logo House of Switzerland is placed on the top right of the page.

Neither Logo Confederation nor Logo House of Switzerland is displayed on the continuation pages.

Partner/sponsor logos are displayed at the very end of the text, underneath the part with the contact information.

Press releases can be published either in colour (red/white/black) or in black and white.

7.3.3.2

If there are official sponsors, always use a white background.

The Logo House of Switzerland resp. Swiss Pavilion is displayed on the bottom right, the Logo Confederation and the logo(s) of the official sponsor(s) on the bottom left. Note that a vertical bar separates the sponsor logos from the Logo Confederation which is always placed on the very left. The URL is placed underneath the Logo Confederation.

If there are no official sponsors, use a red background, applying the guidelines for posters defined in chapter 3.

Respect all minimum distance requirements.

Respect all minimum distance requirements.

Application Systems

Multimedia

The guidelines for multimedia and electronic media differ slightly from the print applications, due to technical preconditions. Nevertheless, they need to be followed as strictly as in other communication channels.

7.3.4.1

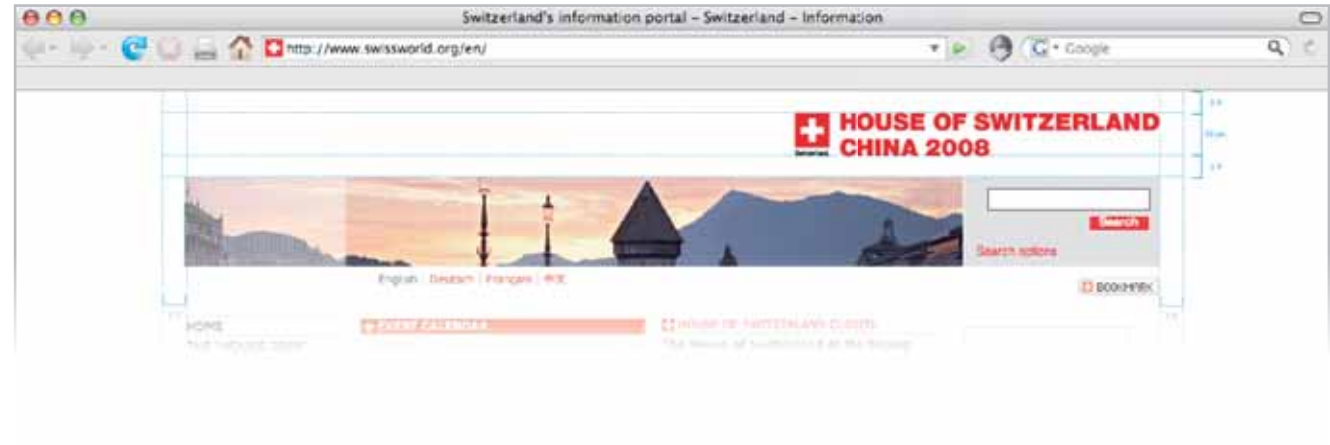

The Logo House of Switzerland resp. Swiss Pavilion should always appear in colour on a white background, and the minimum size allowed online is a height of 60 pixels. Use Red #E11A27 for the logo.

The Logo House of Switzerland resp. Swiss Pavilion is placed on the top right, the logo(s) of the official sponsor(s) are displayed within the page context.
